

CONSIDERING AVITROL?

HERE'S WHY THE WORLD'S LARGEST BRANDS TRUST US

NO FLY ZONE

OUR METHOD TRAINS BIRDS TO TREAT YOUR SITE LIKE A "NO FLY ZONE."

PERMANENT RESULTS

UNLIKE OTHER SOLUTIONS, BAITING CHANGES BIRD BEHAVIORS AT THE CORE.

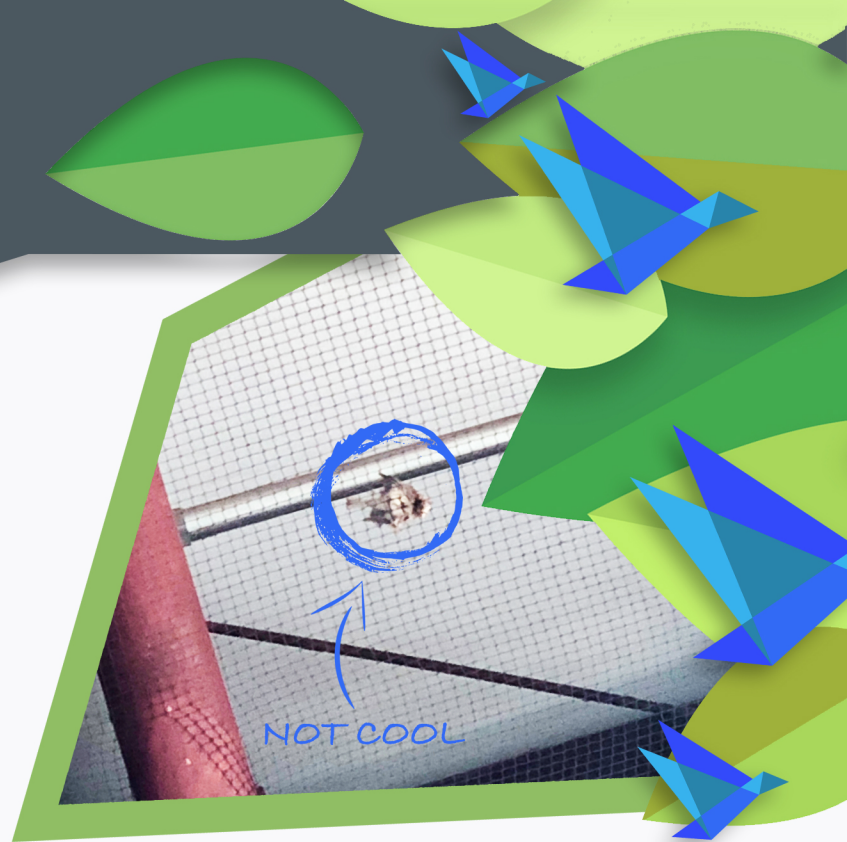

LOCATION SENSITIVITY

OUR BAITING PROCESS IS DESIGNED TO GIVE YOU FREEDOM FROM BIRD ISSUES, WITH MINIMAL IMPACT ON THE ENVIRONMENT.

THE BETTER SOLUTION

A COMMON PROBLEM

SOLUTIONS LIKE BIRD NETTING OR BIRD-SPIKE, KEEP BIRDS OUT OF ONE AREA, LIKE A SIGN OR SERIES OF I-BEAMS, BUT YOU'LL OFTEN FIND THAT THE FLOCK EITHER GETS AROUND IT, OR MOVES SOMEWHERE ELSE ON-SITE.

THERE'S A BETTER WAY

OUR SYSTEM TRAINS AN ENTIRE FLOCK THAT YOUR PROPERTY IS UNSAFE. IN FACT, IN-DEPTH STUDIES SHOW THAT THE FLOCK THAT LEAVES YOUR LOCATION WILL NEVER COME BACK!

TO GET LASTING RESULTS WITH A BIRD PROGRAM, YOU HAVE TO CHANGE THE BIRD'S BEHAVIOR. OUR SYSTEM DOES EXACTLY THAT IN 4 WEEKS OR LESS.

PEST MANAGEMENT IS A SERVICE DESIGNED TO WORK IN THE BACKGROUND. DETERRENENTS LIKE NET AND SPIKE ANNOUNCE YOUR PEST ISSUE TO THE WORLD, WHILE OUR SYSTEM IS OUT OF SIGHT AND OUT OF MIND.

BECAUSE OUR SYSTEM USES THE WAY BIRDS NATURALLY COMMUNICATE, WE ONLY NEED A FRACTION OF THEM TO INTERACT WITH IT.

PERMANENT RESULTS

STOP FIGHTING.

YOU'VE PROBABLY EXPERIENCED THIS BEFORE, BIRDS SHOW UP, SOMEONE INSTALLS SOMETHING, AND THE BIRDS LEAVE FOR A DAY OR MAYBE THE SEASON, BUT EVENTUALLY RETURN.

START WINNING.

AVITROL IS DEPLOYED IN A THREE PHASE PROCESS THAT WILL REMOVE AN EXISTING FLOCK'S HOMING IMPRINT OF YOUR LOCATION, AND PROTECT YOU AGAINST PEST BIRDS LONG-TERM.

1

PRE-BAITING

DURING THIS INITIAL PHASE, THE FLOCK WILL GROW ACCUSTOM TO APPROVED AVITROL FEEDING TRAYS AND PRE-BAIT GRAINS.

2

LIVE-BAITING

ONCE IT'S BEEN DETERMINED THAT THE FLOCK IS FEEDING FROM THE TRAYS, LIVE-BAIT WILL BE DEPLOYED FOR FOUR WEEKS.

3

MONITORING

AFTER PHASE 2 HAS RUN IT'S COURSE, YOUR LOCATION WILL BE MONITORED FOR 10 ADDITIONAL MONTHS TO ENSURE THE RESULTS YOU NEED.
